

**Dr. Duke's Phytochemical and Ethnobotanical Databases****List of Chemicals for Dermatitigenic**

| Chemical                  | Dosage |
|---------------------------|--------|
| (+)-CATECHIN              | --     |
| 2,6-DIMETHOXYBENZOQUINONE | --     |
| AESCULETIN                | --     |
| ALANTOLACTONE             | --     |
| ANACARDIC-ACID            | --     |
| ANETHOLE                  | --     |
| BHILAWANOL                | --     |
| BILOBOL                   | --     |
| BUTYL-ALCOHOL             | --     |
| CATECHOL                  | --     |
| CINNAMIC-ACID             | --     |
| COCAINE                   | --     |
| COSTUNOLIDE               | --     |
| CRYPTOPLEURINE            | --     |
| DELTA-3-CARENE            | --     |
| DIHYDROMETHYSTICIN        | --     |
| EMETINE                   | --     |
| EPHEDRINE                 | --     |
| EPINEPHRINE               | --     |
| ESCULETIN                 | --     |
| EUGENOL                   | --     |
| FICIN                     | --     |
| GLUTEN                    | --     |
| HAEMATOXYLIN              | --     |
| HELENALIN                 | --     |
| HELIOTROPINE              | --     |
| IODINE                    | --     |

| Chemical       | Dosage |
|----------------|--------|
| MADECASSOL     | --     |
| MENTHOL        | --     |
| MORPHINE       | --     |
| MUFA           | --     |
| MUFAS          | --     |
| N-AMYL-ACETATE | --     |
| OLEIC-ACID     | --     |
| PARTHENOLIDE   | --     |
| PROTOANEMONIN  | --     |
| PYROCATECHOL   | --     |
| QUINIDINE      | --     |
| QUININE        | --     |
| RUMICIN        | --     |
| SALICYLIC-ACID | --     |
| SCOPOLAMINE    | --     |
| THYMOL         | --     |
| TYLOPHORINE    | --     |
| TYLOPHORININE  | --     |
| XANTHOTOXIN    | --     |
